

# WANT A LITTLE HELP WITH YOUR ICE REMOVAL?

**Diamond Crystal  
Green Melt Ice Melt**  
50 lb. bag

**CGL 8695**

**Diamond Crystal  
Winter Melt Ice Melt**  
50 lb. bag

**CGL 7709**

A green-tinted, high performance ice melter containing a blend of sodium, potassium and magnesium chlorides for faster, colder temperature melting than regular rock salt. GreenMelt® ice melter is green-tinted for easy-to-see coverage on ice and packed snow. Formulated for minimal to no staining when used as directed.

**Get Ahead of the BAD  
weather Early!**

Fast Melting crystals for greater speed and longevity. Melts below 5°F (-15°C). Provides instant traction. Won't attack concrete and is gentle to vegetation when used as directed. Safe to handle and leaves no oily residue.

*Chemical Product Name: Sodium Chloride*

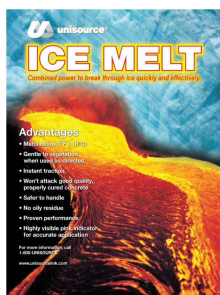

*Chemical Product Name: Sodium, Calcium and Magnesium Chloride*

**Unisource  
Pink Ice Melt**  
50 lb. box

**UNI 10488751**

Breaks through ice quickly and effectively. A pink tint that melts below 0° (-18°C). Provides instant traction. Won't attack concrete and is gentle to vegetation when used as directed. Safe to handle and leaves no oily residue.

*Chemical Product Name: Sodium Chloride*

Fastest melting Calcium Chloride Pellets. Works to -25 F (-31°C). Gives off heat as it dissolves, which makes this the fastest acting ice melt in lowest of temperatures.

*Chemical Product Name :  
Calcium Chloride, water, Sodium Chloride and  
Potassium Chloride.*

\* Prices valid through 2/28/12.
